

Belmont House is a Registered Nursing Home, providing care for people with dementia and long term mental health problems, under constant supervision of trained staff. The House, which is just one mile from Bodmin town centre, originally opened in 1992 and following extensive refurbishment, registration was increased to 40 nursing beds.

Our light and airy bedrooms have wash basin facilities, a television aerial point, nurse call, multiple electric sockets, a mirror and bedside light.

Belmont House has a well-equipped and very spacious main lounge which is used for residents' activities, entertainment and social gatherings. There are two other smaller and more peaceful lounges that are sometimes used for private meetings with friends and relatives. There is also a separate dining room, where most residents prefer to eat their main meals.

"Thank you for all the care which you gave to my Mum, Ella, whilst she was at the home. To know that she was comfortable and well looked after by caring staff meant a great deal to me."

Heather

Nearby amenities include shops, post office, doctors' surgery and churches of various denominations. Full NHS services are available including GP's, chiropodists, opticians and dentists. We also receive visits from such professionals as appropriate.

Transport can be arranged through a GP for some hospital appointments. If not, we can arrange transport and escort services, but this service will incur an additional charge. It is therefore encouraged that relatives assist in this respect to avoid any unnecessary costs. We periodically arrange for a mini-bus with a wheelchair hoist, which enables our residents to enjoy outings to places of interest and visits to the theatre.

Primary Facilities & Services

- Qualified nursing staff on duty 24 hours a day
- Homely caring atmosphere
- Comfortable rooms, all with en-suite facilities

- Passenger lift
- Central heating throughout
- Visiting hairdresser
- Self-contained gardens and patio areas
- No Smoking Policy
- Unrestricted visiting
- All religions accommodated
- Mini-bus arranged for outings
- Television point in all rooms

The accommodation includes 24 single and 8 double bedrooms that are light, airy and tastefully decorated. All bedrooms have washbasin facilities. Each bedroom is equipped with a television aerial point, nurse call, multiple electric sockets, a mirror and bedside light. All bedrooms have their own ventilation with at least one opening window, however windows on all floors have restricted openings to avoid accidents. The bedrooms on all floors are accessed either by the internal stairways or our 12-person passenger lift. Each bedroom is centrally heated with low surface area temperature radiators for safety.

There is also a separate dining room adjacent to our main lounge, where most residents prefer to eat their main meals. The Home benefits from carpeting and central heating throughout and as with the bedrooms all radiators are low surface temperature for safety.

We have six bathroom areas, two of which have shower facilities. All bathroom and toilet areas have suitable non-slip flooring and the main baths have mechanical hoists fitted for use as appropriate. All hot water taps in bathrooms have thermostatic valves to prevent scalding.

Our secure and enclosed garden and patio areas are particularly pleasant and can be easily accessed by residents. A laundry service is also provided on the premises.

Although all our bedrooms are fully furnished to a high standard, small items of furniture and other effects belonging to the resident may be brought into the home with the Manager's prior agreement. Residents can bring a television into the home but are responsible for their own TV license unless it is donated to the home, in which case it will be covered by our own TV license.

Telephones may be installed in individual bedrooms. The resident will be responsible for the installation, rental and any other charges incurred. Mobile phones are permitted.

Wheelchairs, walking frames and other equipment are available and the resident's needs will be assessed by the Manager. Lifting hoists are available for use by our care staff as appropriate to the needs of each resident.

The Home employs its own cleaning and maintenance staff.

Fire precautions at the Home are comprehensive including: smoke detectors, emergency lighting, fire extinguishers and automatic fire doors. The Home is inspected independently by the local fire brigade and complies with current practice.

Staffing

Full personal nursing care is the core provision at Belmont House. Our staff are specifically trained in the care of the elderly. The right attitude to caring is regarded to be of primary importance in the selection of all our staff. A qualified nurse is on duty 24 hours a day.

Visiting

Visiting is as unrestricted as possible at the home. Family and friends are encouraged to visit as often as they can.

Catering

Traditional and wholesome meals are cooked at the home and there is a varied and well balanced menu. Special diets and preferences can be catered for.

Health Care & Spiritual Support

Full National Health Services are available including General Practitioners, Chiropodists, Opticians and Dentists as required. There are various religious denominations in Bodmin, some of which visit the home periodically.

Fees

Fees are determined following an assessment of each resident's specific needs by our Manager/ Matron. Fees cover all care and accommodation costs, including food and laundry. Referrals from Social Services are also welcome.
